ENTREPRENEURSHIP & LEADERSHIP

Water Entrepreneurship Initiative
Founder
Started a community water distribution business during the COVID-19 lockdown, serving 22 customers daily while managing its operations, customer service, and finances.

Business Club
Vice-President • Rwanda Coding Academy
Introduced an initiative helping young teen mothers return to school and start small businesses with money raised through club contributions.

Kindergarten Fruit Support
Contributor
Used some of the money from freelance work to provide fruits for kindergarten children in my village to support their nutrition.

EDUCATION

Ordinary Level
Lycée Saint Jérôme Janja
Graduated 2024

Advanced Level, Software Programming & Embedded Systems
Rwanda Coding Academy (RCA)
Expected Graduation: 2027

TECHNICAL SKILLS

Languages
Java, JavaScript, TypeScript, Python

Frameworks
React, React Native, Next.js, NestJS

Database & Tools
PostgreSQL, Prisma, Git, GitHub

EXPERIENCE & SELECTED PROJECTS

TradeWise AI
Independent Researcher
Investigated whether machine learning could predict seven-day crop price changes for farmers and traders in Rwanda. I analyzed historical market-price data, developed prediction models, and tested their ability to identify future price changes

Industrial Attachment Program (IAP)
Full-Stack Developer • Rwanda Coding Academy
Built a digital six-month attachment system used by 121 students, replacing paper-based logbooks with a system for managing their attachment records and making them accessible anytime.

Shop Management System
Full-Stack Developer • Freelance / Client
Developed a sales and inventory system for a paying client, used by 3 workers and an admin to verify sales and update stock accordingly.
